

Parking Information

Parking is always a difficult task on Labor Day Weekend anywhere you go on the Jersey Shore: however, thousands of people who attend our show every year have felt it is well worth the patience needed to find a space. Many people find parking spaces throughout our 1/2 mile radius town of Ocean Grove and enjoy the stroll past beautifully refurbished Victorian homes along their walk to the show. Some people find a spot in neighboring towns which is usually a five to ten minute walk to Ocean Pathway, the location of our show. For your convenience and especially for those who are unable to walk, both Ocean Pathway streets that line the grass pathway will be cleared during the show hours (9am to 4pm) for dropping off and picking up customers. This "No Parking" ordinance will also make it easier for customers to transport heavy or oversized merchandise to their vehicle which they may temporarily pull up close for loading.

Asbury Park has been an excellent location for many people who attend our popular weekend concerts. Take a short foot bridge from Asbury Park, cross through a small (1 block wide) park and walk 3 short blocks to the show. Seeing these blocks are only the width of two houses, the show's location is about a 5 minute walk from parking in Asbury Park. There are a large number of parallel parking spaces that line the Asbury Park side of Wesley Lake. These spaces are available to the public pending they are not blocked off for construction purposes.

As the show date gets closer, more parking information may be added to this page. Please check back for updates.
